## Water Fight doesn't impress at OAS

- Written by Lovely and Loveliest!

As seen in the picture above the senior staff member at Onewhero Area School was not very impressed by what happened on the 24 August. Not wanting to be named the staff member said that on a day such as Cross Country all staff members should be setting an example for the students to follow, and that it's not at all a good look in front of the many parents who came along to watch and support their children see a

thing like that happen. She also informed us that the matter would be taken further to make sure it never happens again.

Other than that the day was a great success. All the runners had great fun and with the weather gods playing their part it turned out to be a beautiful day. Although many of the students couldn't help themselves to a bit of mud. And we were also informed that the school has some talented up and coming young runners!
